TRIP TO THE MUSEUM OF NATURAL HISTORY

Elhaam Academy's K-2 students enjoyed a fun and educational trip to the Museum of Natural History. They explored fascinating exhibits, from ancient fossils to the wonders of space, asked curious questions, and discovered the beauty of science in a hands-on way. It was a joyful learning experience that inspired excitement and imagination beyond the classroom.

The World
WE DREAM OF

Recognizing and appreciating the meaningful work behind our student publication.

S.T.E.A.M CLUB

At the STEAM Club for Grades 4 to 7, students experimented with magnets. By rubbing a binder clip against a magnet, they tested how long a paper clip would stay attached after magnetization. It was a challenging but exciting experiment, with three successes out of sixteen attempts. One paper clip even held for about six seconds. We'd call that a magnetic success!

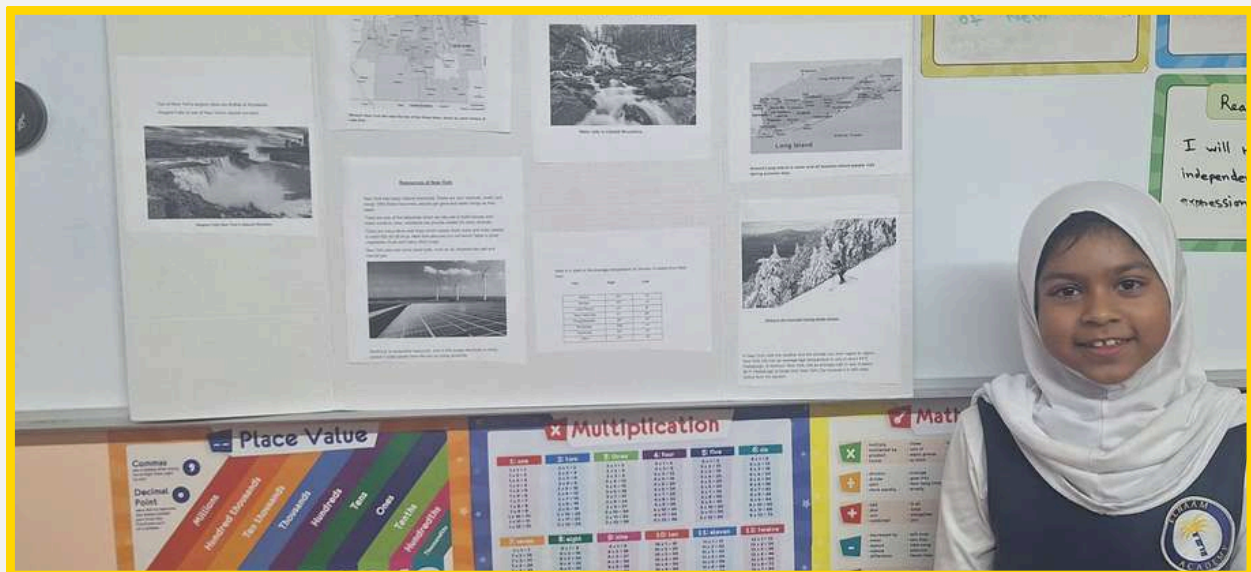

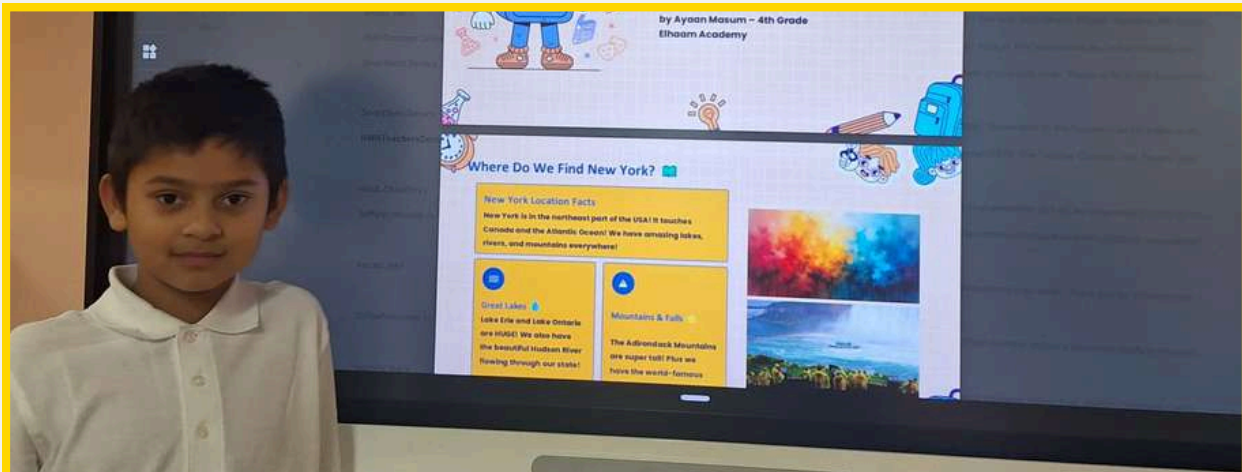

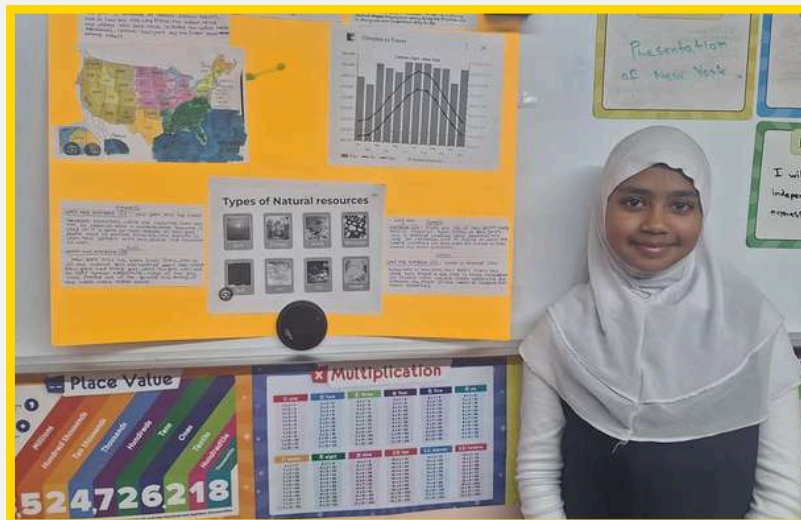

Students engineered paper boats and tested how much weight they could hold while staying afloat. Hands-on learning, creativity, and problem-solving all in one fun challenge.

Pajama Day at Elhaam Academy brought comfort, smiles, and lots of cozy fun as students enjoyed learning in their favorite PJs.

OUR 4TH GRADE STUDENTS PROUDLY SHOWCASED THEIR "ALL ABOUT NEW YORK" PROJECTS, EXPLORING THE STATE'S SEASONS, CLIMATE, LANDMARKS, AND UNIQUE FEATURES. THEIR CREATIVITY AND RESEARCH BROUGHT NEW YORK TO LIFE IN THE CLASSROOM.

Learning all about letter ج with kindergarten!
